OFFICER'S REPORT

The property known as 'Millview Cottage' is a one and a half storey dwelling with attached garage to the front and an extension to the rear. The house is setback from and faces south onto Rue de Francais, there are neighbouring properties to the east and west and open fields to the north. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to remove the two sections of wall at the rear of the parking area and to remove the majority of the wall to the side of the parking area, leaving a 1.5m return section from the roadside boundary wall. Repave the new, larger parking area with natural (permeable) granite setts.

At present the parking area is separated from the front garden area and the path running along the front of the property by an approx. 1m high wall with pedestrian entrance. The proposals are to remove this wall to open up the front garden, which is to remain, and allowing the parking area to take the whole of the space between the road and the property.

It is noted that the wall is just 10cm higher than is permitted as exempt development. Removing the wall from within the site is not considered to have any detrimental impact impacts on the character and appearance of the surrounding area, nor will the proposals have any adverse effects on neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
