OFFICER'S REPORT

Brief Description of the site:

Planning permission is requested for variations to works previously approved to install external insulating render system (FULL/2024/0383). The variations involve increasing the thickness of the external insulation, installing external insulation to the single storey extension to the south and applying render to the north roadside elevation.

The site is located in the Main Centre Inner Area and Conservation Area as designated in the Island Development Plan.

Relevant History:

05/04/2024 – FULL/2024/0383 – Permission granted to install external insulating render system.

Existing Use(s):

Residential

Policies considered most relevant:

GP4: Conservation Areas
GP8: Design
GP9: Sustainable development
GP13: Householder development

Conclusion/Brief comment:

The covering up of the roadside granite elevation with lime render is somewhat unfortunate. However, applying render to granite walls is not uncommon within the area and together with the siting of the site at the end of Les Monmains and the industrial nature of the surrounding area, the proposal will have a neutral effect on the character and appearance of the Conservation Area.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
