OFFICER'S REPORT

Brief Description:

The application relates to an existing detached outbuilding at Varclin House and proposes to raise the roof of a section of that outbuilding.

The works are proposed in connection with the use of the building for home based employment and the storage of tall/larger materials associated with the picture framing business operation proposed. The submission sets out that the home based business will be carried out in line with the current exemptions associated with this use.

The site is located Outside of the Centres as designated in the Island Development Plan.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

Raising the height of a section of the existing outbuilding as proposed is unusual, however the building is well screened in public views by roadside boundary treatments. Despite being different to the height of the existing roof of the outbuilding, the proposal would not lead to undue harm to the character or appearance of the surrounding area to reasonably justify refusal when taking into account the degree of personal choice with regards to design matters (Policy GP8 and GP13).

The application is acceptable in relation to the above policies and other material planning considerations.
