Conclusion/Brief comment:

Initially, this application was to remove the existing hedge and erect a 2m high fence on top of the 1.25m high granite wall along the east boundary. However, this would have meant a solid boundary 3.25m high along the road. The application was deferred to seek an alternative solution due to the resultant concerns about the visual of the fence. The revised application now seeks to retain the existing hedge in situ and to replace the existing low fence with a 1.5m high fence inside the existing hedge.

With the existing hedge remaining in situ and the new fence being erected inside the hedge, the new fence will not form an overly prominent feature from public view and is likely to have a limited impact on views from and along the street.

The proposals are now considered to achieve a good standard of design, the new fence is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
