OFFICER'S REPORT

Brief Description of the site:

The application site is located in a Main Centre Outer Area as designated in the Island Development Plan. The property in question, Maison du Folie, consists of a traditional, semi-detached dwelling located to the south of Les Mares Pellees.

The house was substantially extended to the rear sometime between 1979 and 1990, based on orthophotographs.

Planning permission is sought to demolish an extension and erect a replacement single storey flat roof extension, to the east (side) and south (rear) elevations, and make alterations to the fenestration. The extension will serve a store, braai room, kitchen and dining area.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

Policy GP13 is generally supportive of proposals for domestic extensions, alterations and other such householder development, unless material considerations indicate otherwise or conflicts with other Plan policies or the States strategic objectives are identified.

The proposed development is subservient and proportionate to the house, adopts a good standard of design by virtue of its scale, form, massing, siting and materials, and represents an acceptable sized addition to the property. The front (north) elevation of the extension features a parapet wall which respects the traditional character of the dwelling.

Due to its scale, size, relationship to the house and existing extension to the rear, existing high boundary treatments, and neighbouring properties; the proposal is not considered to have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
