Conclusion/Brief comment:

This application is to demolish the chimney and rear extension, and erect a larger single storey rear extension with alterations to the fenestration and to extend the car parking area slightly.

The property is not within a Conservation Area and so there are less prescriptive controls over chimneys within the street scene, in this instance the removal of the chimney is not considered to have any detrimental impacts and its removal is considered acceptable.

The larger rear extension will decrease the size of the outdoor amenity area, but the property is situated within the main centre outer area of St Peter Port where there is less space for properties to have large gardens because of the higher densities, and there is access to many public amenity spaces and the coast.

The proposed new ground floor windows on the southwest gable are exempt works and therefore will not be assessed as part of this application.

Proposals to square off the parking area and extend the hardstanding is not exempt work, but is considered minor and therefore acceptable.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
