OFFICER'S REPORT

Brief Description of the site:

The application site known as Beau Vallee consists of a detached dwelling-house located to the east of La Rue Des Villets. The site is located Outside of the Centres as designated in the Island Development Plan.

Planning permission was granted earlier this year (2025) to extend at ground and first floor level to create a 1.5 storey extension to the rear of the property (application reference; FULL/2025/0416).

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The proposed windows represents a minor change to the overall design of the scheme.

Careful consideration has been afforded to the amenities of neighbouring residents, with particular focus on the overlooking effect from the proposed windows. Whilst the installation of two windows in close proximity to a boundary would typically result in overlooking issues towards neighbouring properties, in this particular case, the windows would face out towards an agricultural field, and the area overlooked is substantially setback from the neighbouring dwelling to the north.

Consequently, the development is not considered to have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
