Conclusion/Brief comment:

This application is for a first-floor extension over the existing flat roof extension which was once a pair of garages. The extension incorporates juliette balconies on the front and the rear elevations. The roof line will alter, from a hipped roof to a fully pitched roof with a north facing gable. Finally install three rooflights to each roof slope and a multi-fuel burner flue is also proposed.

To the east of the Helston Estate road all of the properties have hipped roofs, but the properties to the west all have gables, so there is not a distinctive character or style to the area, therefore allowing a fully pitched roof with a gable is not considered too different to warrant a change in roof style.

The proposals achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have an unacceptable impact on immediate neighbours in terms of possible overshadowing. Due to distance separation between properties (south and east). To the north the angle from the first-floor gable window and rear juliette balcony fenestration would be too obscure to have an unacceptable impact on the privacy of the adjoining house. To the west is the end Les Puits (no through road) so the extension will not result in undue harm to properties to the west.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
