Policies considered most relevant:

GP4: Conservation Areas
GP8: Design
GP9: Sustainable development
GP13: Householder development

Conclusion/Brief comment:

Sited to the rear of the dwelling, the workshop would not form a prominent feature from the public highway. The workshop and alterations to the barn achieves a high standard of design and would have no adverse effects on the character and appearance of the Conservation Area. The proposal accords with Policies GP4 and GP8.

The workshop is set back from the neighbouring boundary to the west and together with the change in levels and existing planting, the proposal is unlikely to have any adverse effects on the amenities of neighbouring residents.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations. It is recommended that the application is approved.
