OFFICER'S REPORT

Brief Description of the site:

The application site comprises an agricultural holding which is located to the south of Les Rocques Barrees Road. The site is bounded by a large granite wall to the north which restricts views into the site.

The site comprises a protected building which is located Outside of the Centres as designated in the Island Development Plan.

Planning permission is sought to erect a raised terrace area to the south (rear) of property. It is understood that part of the existing wall to the rear of the conservatory requires replacement. The proposal seeks to take advantage of the opportunity to create a raised terrace area off the back of the existing conservatory to improve outdoor amenity space. The raised terrace will be sited over an existing pathway to the rear of the property, and be finished with timber balustrading around the perimeter, and millboard cladding for the decking. It is noted that the existing stone retaining wall will be retained.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is a requirement under the Land Planning and Development (Guernsey) Law, 2005, when considering applications affecting protected buildings, to secure so far as possible that the special historic, architectural, traditional or other special characteristics (including setting) are preserved. This duty is reflected in Policy GP5 of the IDP.

In light of the relevant policies, the proposed development is generally minor in nature and will have a negligible effect on the overall special interest of the protected building, including its setting. Consequently, the reasonable aspirations of the property owner outweigh any harm on the protected building in light of Policy GP5.

Due to the location of the works, the proposal will not affect the character or appearance of the surrounding area, or adversely affect the amenities of neighbouring residents.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
