Conclusion/Brief comment:

This application is to remove the hedge along the northeast boundary and replace it with a fence, 1.8m high along the western end of the boundary and then lowered to 1.2m along the eastern end forward of the building line.

The hedge is in poor condition and parts of it are dying leaving large gaps between the neighbours. The style of fence proposed is vertical hit and miss fence panels which is considered acceptable and appropriate.

The proposals achieve a good standard of design, and are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it

have any impact on either of the immediate neighbours. The proposals will not have any impacts on the setting of the protected building.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
