Conclusion/Brief comment:

This application is to remove the dying hedge along the north boundary and replace it with an 800mm high wall with a 1.8m high fence on top.

The exempt height for a rear boundary between neighbours is 2m, anything higher requires a planning application, and usually a higher boundary is required due to a difference in land levels either side. In this case the land levels are the same, but the hedge being replaced was 2.6m and the applicant would like to build raised beds off the wall under the fence.

Due to the location, the boundary cannot be seen from any public vantage points, and so public amenity will not be affected.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The scale and massing of the new boundary is not considered to have a detrimental effect on the character and amenity of the surrounding conservation area, nor will it have any impact on either of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
