(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

OFFICER'S REPORT

Brief Description of the site:

Woodfalls is a detached bungalow situated to the west of La Rochelle Road. A detached outbuilding/garage is situated forward of the dwelling, adjacent to the northwest site boundary and a single-storey outbuilding and glasshouse are situated in the northwest corner of site, to the rear of the neighbouring property (Gran's House).

The dwelling and garage are situated within a Conservation Area however, the land to the rear of the site, where the outbuilding/garage and greenhouse are proposed is outside this IDP designation. The property is located Outside of the Centres as designated in the Island Development Plan.

Conclusion/Brief comment:

The application relates to the erection of a single-storey flat roof three bay garage with timber clad exterior. The building is to be situated to the immediate south of the existing outbuilding and will require the existing greenhouse to be removed. A new greenhouse is proposed to the south of the proposed garage however, this represents exempt works and does not form part of the assessment of this application.

The single-storey nature of the proposed outbuilding and its position to the rear of frontage development in La Rochelle Road is such that the building will not be highly visible. From the south the building will be viewed in the context of existing residential development. The scheme represents a good standard of design that respects the built and open landscape concerned.

The building is situated away from other residential properties and will not result in overshadowing or overlooking to neighbouring occupiers.

Confirmation has been received that the proposed development has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

In view of the above it is recommended permission is granted for the proposed development.
