OFFICER'S REPORT

Brief Description of the site:

The application site comprises a traditional, two storey detached dwelling located to the west of La Route De Sausmarez. The building comprises a Georgian inspired façade and has been extended in this architectural style to the north and south elevations respectively and features a conservatory and outbuilding to the rear.

The property is located in Conservation Area as designated in the Island Development Plan Proposals Map.

Planning permission was granted in 2023 to extend and alter the property. The permission included dormer windows to the rear elevation and a rooflight to the front (east) elevation. During the application process the agent omitted the first floor window to the south elevation and replaced the balcony with a Juliet balcony in attempt to overcome concerns raised.

Planning permission is now sought to vary the permission by omitting the dormer windows and Juliet balcony to rear, roof light and covered internal garden route/walkway, and install rooflights, reconfigure ground floor layout, and make alterations to the portico and fenestration.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The proposed changes to the scheme will not have a material effect on the overall appearance of the scheme that would cause undue harm to the character of the area, visual amenity or neighbour amenity.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
