**Conclusion/Brief comment:**

During the course of consideration the application was deferred due to concerns about the design of the altered/replacement doors and the impact on the special interest of the protected building. Revised plans have subsequently been submitted which have addressed the concerns raised and the proposal now achieves a high standard of design and would have no adverse effects on the special interest of the protected building.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
