Policies considered most relevant:

OC8(A): Visitor Accommodation Outside of the Centres - New, Extension, Alteration or Redevelopment of Existing Uses

GP8: Design

GP9: Sustainable Development

Conclusion/Brief comment:

Policy OC8(A) specifies that development in relation to extensions/alterations to existing visitor accommodation should be of a scale that is appropriate to the character of the location and is undertaken sensitively so as not to detract from the openness and landscape character of the area nor to undermine the vitality of a Centre and additional facilities should be ancillary and incidental to the principal use in terms of scale and use, proportionate to the amount of visitor accommodation available at the site and without adverse effects on the visual quality of the area.

This proposal does not relate to a physical extension to the hotel when considering many aspects of OC8(A) and the signage proposed will not have an adverse impact on any Local or Main Centre.

The key issue in this case, addressed through OC8(A) and GP8 relates to the impact of the proposals on the character of the area. The traditional sign written approach to the signage is considered sympathetic to the building and surroundings. Although large the signage is proportionate to the gable wall on which it would be situated and will not detract from the wider landscape character, particularly given that surrounding development and field edge landscaping limit wider views of the sign proposed.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

In view of the above it is recommended permission is granted.
