OFFICER'S REPORT

Brief Description of the site:

Conclusion/Brief comment:

This application is to remove the hedge running along the southeast boundary and replace it with a fence. The majority of the fence will be 1.8m in height and will run from the south north-eastward. Once the front building line is reached the fence will start to reduce in height, one panel at 1.52m, two panels at 1.22m and the roadside fence panel will be 0.914m in height.

The fence heights reducing down towards the road is the best solution for front gardens and is considered appropriate and acceptable.

The proposals are considered to achieve a good standard of design. The scale and massing of the new fencing is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impacts on any of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
