Conclusion/Brief comment:

This application is to remove an over 3m high overgrown Leylandii hedge and erect a 1.8m high fence in its place.

The location of the existing hedge/proposed fence is forward of the building line, however, the roadside boundary wall is a granite wall of similar height, which the fence would run up to. The other side of the proposed fence is a small patch of grass belonging to the flats to the northeast, with their vehicular entrance and some parking spaces. The granite wall reduces in height to less than 0.9m either side of the vehicular opening.

Replacing the hedge with a fence will give at least an extra 1.5m of additional space on either side. Views of the fence will be limited when approaching from the southwest, but it will be quite visible when approaching from the northeast. However, the area is a parking area and not specific private amenity space, therefore the fence is acceptable in this instance.

The proposal is considered to achieve a good standard of design. The scale and massing of the proposal is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on any of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
