Conclusion/Brief comment:

This application is to alter the front vehicular entrance off Rue de la Flaguee, alter the walls and add pillars and entrance gates. The walls will form a bellmouth and the pillars and gates will be 5m apart and approx. 3m back from the road. The walls will form planters either side of the entrance.

Altering the access will enable a set of gates to be installed within the domestic curtilage, 3m into the site, which will still leave plenty of room for parking and turning. The road is a neighbourhood road which due to its narrowness has low speed limits, the bellmouth offers a car to pull off the road whilst the gates are opening, which accords with policy IP9.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The scale and massing of the proposal is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
