Conclusion/Brief comment:

This application is to erect a single storey side and rear extension to house a study, utility room, entrance hall and bathroom leading into a larger kitchen diner at the rear of the property. Change a first floor rear window into a door and create a small balcony at first floor over part of the dining room.

There are no concerns about the single storey extension, which will be hidden from the road by a traditional parapeted wing wall on the front façade. The rear first floor balcony is considered to be acceptable because the first floor bathroom walls prevent overlooking into the southern neighbours garden and to the north the neighbour there already has a first floor balcony which already has a 1.8m high privacy screen to protect their private amenity space. The balcony at the application site is set further from the shared boundary and, given the relationship with the

neighbour, it is not considered necessary to require a further screen in relation to the proposed balcony.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
