OFFICER'S REPORT

Brief Description:

The application proposes to demolish the single storey extensions to the north-west and east of the existing dwelling, and to construct a two storey extension to the north-west and a 1.5 storey extension to the east of that dwelling. In addition it is proposed to alter fenestration and extend the existing raised terrace to the north of the building.

The demolition of an existing chimney and enclosure of the porch would not require planning permission.

The site is located Outside of the Centres as designated in the Island Development Plan.

Conclusion/Brief comment:

The proposed plans match those previously approved under FULL/2022/2117 and there has been no subsequent change in policy framework or circumstance which would alter the previous assessment. The application was however deferred for a minor adjustment to the upper level window proposed to the west elevation, to reduce the openable area of that window which faces immediately onto the boundary with the adjoining property.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
