OFFICER'S REPORT

Brief Description of the site:

The Bramble Leaf site consists of a detached bungalow located to the west of Ruelle Du Villocq. The driveway and attached garage are situated adjacent to the north site boundary.

A pedestrian track lies to the south of the dwelling, which is recognised as a protected monument. The description of the protected monument includes *'the paved pathway and douit leading from the parish pump to the former telephone exchange at Le Villocq'*.

The application relates to the demolition of an existing outbuilding to the west of the dwelling and the construction of a single storey extension to south-west (side/rear) elevation, linking to the existing garage extension. A 2m high wall is proposed to south-west boundary in connection with the relocation of the oil tank which itself represents exempt works.

The application site lies within a Conservation Area and is located Outside of the Centres as designated in the Island Development Plan.

Conclusion/Brief comment:

It is a requirement under the Land Planning and Development (Guernsey) Law, 2005, when considering applications affecting protected monuments and Conservation Areas, to secure so far as possible that the special historic, architectural, traditional or other special characteristics (including setting) are preserved.

The proposed extension represents a good standard of design that respects the local built environment and will offer occupiers with more flexible and adaptable accommodation. The space is currently a patio area containing a shed and oil tank with the boundary adjacent to the neighbouring driveway serving a house and telephone exchange. The primary amenity space serving this dwelling appears to be to the east of the dwelling where a further patio exists along with an area of lawn and a swimming pool. Although the extension would impact on the level of external amenity space serving the property there remains adequate space to serve the needs of occupiers. The proposed extension is also described as a garden/hobby room and will enhance the enjoyment of the property by the occupiers.

The proposal will not have a detrimental effect on the setting of the protected monument, Conservation Area, or the amenities of neighbouring residents.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

In view of the above it is recommended permission is granted.
