Conclusion/Brief comment:

This application is to remove the west gable chimney and patch and make good the roof to match the existing.

The property is approx. 40m away from the town conservation area, but nonetheless outside of the area with more prescriptive controls. As chimneys are read a part of the street scene, they are considered to contribute to the character of an area.

However, the site is outside of the conservation area moving towards an area which has differing ages and styles of buildings which do not have the same sense of character as further eastward, within the conservation area.

The semi-detached property has a chimney on both gables, so to lose one of the chimneys is not considered to have a significant adverse effect on the character of

the building. The proposals are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
