

**THE LAND PLANNING AND DEVELOPMENT (GUERNSEY) LAW, 2005**  
**AND THE LAND PLANNING AND DEVELOPMENT (GENERAL PROVISIONS)**  
**ORDINANCE, 2007**

## **NOTIFICATION OF GRANT OF PLANNING PERMISSION**

**PROPOSALS:** Remove existing substation and install relocated substation with GRP enclosure.

**LOCATION:** Candie House, Candie Road, Castel.

**APPLICANT:** Guernsey Electricity Ltd

This permission is granted under the terms of Sections 15 and 16 of the Land Planning and Development (Guernsey) Law, 2005 (the 'Law').

**Date of Grant of Permission:** 23/12/2025

This notification of grant of permission refers solely to the proposals referred to above as described in your application received as valid on 14/11/2025 and the drawings referred to below. This grant of permission is subject to the following conditions:-

**Drawing Nos:** Guernsey Electricity: 1063 P02-01-12-0208 D04

**Application Ref:** FULL/2025/1799

**Property Ref:** D002330000

**Conditions and reasons:-**

1.All development authorised by this permission must be carried out and must be completed in every detail in accordance with the written application, plans and drawings referred to above. No variations to such development amounting to development may be made without the permission of the Authority under the Law.

Reason - To ensure that it is clear that permission is only granted for the development to which the application relates.

2.The development hereby permitted shall be begun within 3 years from the date of grant of this permission.

Reason - This condition reflects section 18(1) of the Land Planning and Development (Guernsey) Law, 2005 which states that planning permission ceases to have effect

unless development is commenced within 3 years of the date of grant (or such shorter period as may be specified in the permission).

3.The development hereby permitted and all the operations which constitute or are incidental to that development must be carried out in compliance with all such requirements of The Building (Guernsey) Regulations, 2012 as are applicable to them, and no operation to which such a requirement applies may be commenced or continued unless (i) plans relating to that operation have been approved by the Authority and (ii) it is commenced or, as the case may be, continued, in accordance with that requirement and any further requirements imposed by the Authority when approving those plans, for the purpose of securing that the building regulations are complied with.

Reason - Any planning permission granted under the Law is subject to this condition as stated in section 17(2) of the Land Planning and Development (Guernsey) Law, 2005.

4.Noise associated with plant and machinery incorporated within the development shall be controlled such that the Rating Level, measured or calculated at 1-metre from the facade of the nearest existing noise sensitive premises, shall not exceed a level 5 dB(A) below the existing LA90 background noise level, including low frequency tones. Rating Level and existing background noise levels shall be determined as per the guidance provided in BS 4142:2014+Al:2019.

Reason - To prevent a nuisance or annoyance to nearby residents.

5.No development shall commence on site (including demolition and site works) until there has been submitted to and approved in writing by the Authority:

(a) A desktop study documenting all the previous and existing land uses of the site and adjacent land in accordance with national guidance as set out in Land Contamination Risk Management (LCRM) and BS10175:2001+A2:2017 - Investigation of Potentially Contaminated Sites - Code of Practice;  
and unless otherwise agreed in writing by the Authority,

(b) a site investigation report documenting the ground conditions of the site and incorporating chemical and gas analysis identified as appropriate by the desk top study in accordance with BS10175;  
and, unless otherwise agreed in writing by the Authority,

(c) a detailed scheme for remedial works and measures to be undertaken to avoid risk from contaminants and/or gases when the site is developed and proposals for future maintenance and monitoring. Such scheme shall include nomination of a competent person to oversee the implementation of the works.

(ii) If determined to be required the development hereby permitted shall not be occupied or brought into use until there has been submitted to the Authority verification by a competent person approved under the provisions of subsection (i)(c)

of this condition that any remediation scheme required and approved under the provisions of subsection (i)(c) of this condition has been implemented fully in accordance with the approved details (unless varied with the written agreement of the Authority in advance of implementation). Unless otherwise agreed in writing by the Authority such verification shall comprise:

- a) as built drawings of the implemented scheme;
- b) photographs of the remediation works in progress;
- c) certificates demonstrating that imported and/or material left in situ is free from contamination.

Thereafter the scheme shall be monitored and maintained in accordance with the scheme approved under subsection (i)(c) of this condition.

Reason - To make sure that the site, when developed is free from contamination, in the interests of public health and safety.

**Expiry Date: This permission will cease to have effect on 22/12/2028 unless development is commenced by that date.**

#### **ADVICE AND OTHER REMARKS:-**

##### **Effect of planning permission:**

Section 18 of the Land Planning and Development (Guernsey) Law, 2005 ('the Law') defines the effect of the planning permission hereby granted, namely:

- (1) Planning permission ceases to have effect unless the development permitted by it is commenced within a period of three years immediately following the date on which it is granted (or such shorter period as may be specified in the permission).
- (2) Planning permission enures for the benefit of the land concerned and of every person for the time being having an interest in it.
- (3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.
- (4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.
- (5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

**Right of appeal against planning decisions:**

Your attention is drawn to the provisions of Section 68(1) of the Land Planning and Development (Guernsey) Law 2005, which provides a right of appeal, on the merits against a decision to grant planning permission subject to conditions (except a building condition), to the Planning Tribunal, which is independent of the States of Guernsey. An appeal to the Planning Tribunal under section 68 of the Law against this decision must be made before the expiry of the period of six months beginning with the date on which the Authority made this decision. The official Appeal Notice Forms are available on the States of Guernsey website at [www.gov.gg/planningpanel](http://www.gov.gg/planningpanel) and must be completed with all enclosures in multiples as requested and received within the six months deadline.

**Copy of representations made:**

In reaching this decision the Authority took into account any written consultations made under Section 11(1) of the Land Planning and Development (General Provisions) Ordinance, 2007 ('the Ordinance'). A copy of any consultation responses made under section 11 will be included with this decision in accordance with section 19 of the Ordinance.

**Other Remarks:**

Please note that any work which abuts or affects the public highway requires prior approval by Traffic and Highway Services. Please contact Traffic & Highway Services ([highways@gov.gg](mailto:highways@gov.gg)) for further advice. You must also ensure that any access/es to the development are constructed to meet the existing road/footway levels in accordance with their requirements.

**This document is not a Building Licence and confers no approval under the Building Regulations.**

**A separate Building Control Licence may be required and it is the responsibility of the developer to ensure that ALL necessary consents are obtained and that any pre-commencement conditions are discharged prior to development being commenced.**

**Applicant:** Guernsey Electricity Ltd

**RECOMMENDATION** - Grant: Planning Permission with Conditions:

---

1. All development authorised by this permission must be carried out and must be completed in every detail in accordance with the written application, plans and drawings referred to above. No variations to such development amounting to development may be made without the permission of the Authority under the Law.

Reason - To ensure that it is clear that permission is only granted for the development to which the application relates.

2. The development hereby permitted shall be begun within 3 years from the date of grant of this permission.

Reason - This condition reflects section 18(1) of the Land Planning and Development (Guernsey) Law, 2005 which states that planning permission ceases to have effect unless development is commenced within 3 years of the date of grant (or such shorter period as may be specified in the permission).

3. The development hereby permitted and all the operations which constitute or are incidental to that development must be carried out in compliance with all such requirements of The Building (Guernsey) Regulations, 2012 as are applicable to them, and no operation to which such a requirement applies may be commenced or continued unless (i) plans relating to that operation have been approved by the Authority and (ii) it is commenced or, as the case may be, continued, in accordance with that requirement and any further requirements imposed by the Authority when approving those plans, for the purpose of securing that the building regulations are complied with.

Reason - Any planning permission granted under the Law is subject to this condition as stated in section 17(2) of the Land Planning and Development (Guernsey) Law, 2005.

4. Noise associated with plant and machinery incorporated within the development shall be controlled such that the Rating Level, measured or calculated at 1-metre from the facade of the nearest existing noise sensitive premises, shall not exceed a level 5 dB(A) below the existing LA90 background noise level, including low frequency tones. Rating Level and existing background noise levels shall be determined as per the guidance provided in BS 4142:2014+A1:2019.

Reason - To prevent a nuisance or annoyance to nearby residents.

5. No development shall commence on site (including demolition and site works) until there has been submitted to and approved in writing by the Authority:

(a) A desktop study documenting all the previous and existing land uses of the site and adjacent land in accordance with national guidance as set out in Land Contamination Risk Management (LCRM) and BS10175:2001+A2:2017 - Investigation of Potentially Contaminated Sites - Code of Practice;

and unless otherwise agreed in writing by the Authority,

(b) a site investigation report documenting the ground conditions of the site and incorporating chemical and gas analysis identified as appropriate by the desk top study in accordance with BS10175;

and, unless otherwise agreed in writing by the Authority,

(c) a detailed scheme for remedial works and measures to be undertaken to avoid risk from contaminants and/or gases when the site is developed and proposals for future maintenance and monitoring. Such scheme shall include nomination of a competent person to oversee the implementation of the works.

(ii) If determined to be required the development hereby permitted shall not be occupied or brought into use until there has been submitted to the Authority verification by a competent person approved under the provisions of subsection (i)(c) of this condition that any remediation scheme required and approved under the provisions of subsection (i)(c) of this condition has been implemented fully in accordance with the approved details (unless varied with the written agreement of the Authority in advance of implementation). Unless otherwise agreed in writing by the Authority such verification shall comprise:

a) as built drawings of the implemented scheme;

b) photographs of the remediation works in progress;

c) certificates demonstrating that imported and/or material left in situ is free from contamination.

Thereafter the scheme shall be monitored and maintained in accordance with the scheme approved under subsection (i)(c) of this condition.

Reason - To make sure that the site, when developed is free from contamination, in the interests of public health and safety.

## OFFICER'S REPORT

### Brief Description:

The application relates to the removal of an existing substation and the erection of a new substation with GRP enclosure to be situated on land to the east of Candie Road.

The site is located Outside of the Centres and within the Agriculture Priority Area as designated in the Island Development Plan.

### Existing Use(s):

Substation site

### Assessment: *(Tick as appropriate)*

no representation  
accords with policy  
within curtilage  
design acceptable

### Policies considered most relevant:

GP8: Design

GP9: Sustainable Development

### Consultation:

Office of Environmental Health and Pollution Regulation – I have reviewed the proposed plans for the removal and replacement of an electricity substation, referenced above, which were received by email on 1gth November 2025 and there are a number of issues of concern that I must raise.

I recommend a condition relating to noise associated with the equipment and a full contaminated land condition in relation to the area of land that the existing substation is currently sited on.

### Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The recommendation of OEHPR regarding contaminated land has been noted. It is not reasonable to impose a condition relating to the decommissioning of the

proposed substation as its removal will require permission and so the land contamination issues can be addressed at that time. With regard to the substation to be removed however, the site is being decommissioned. It is reasonable therefore, to consider the position of a contaminated land condition in relation to that area of the site.

The application is acceptable in relation to the above policies and other material planning considerations.

**Recommendation:**

Grant with Conditions

**Date:** 23/12/2025
