Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The Authority has a duty under Section 34 of the Land Planning and Development (Guernsey) Law, 2005, to secure so far as possible that the special interest of a protected building is preserved, and with respect to a protected building or any other building or land in the vicinity of a protected building, to pay special attention to the desirability of preserving the protected building's special characteristics and setting. The proposal would be attached to a modern aspect of the building that is excluded from the protection notice. The scale of the proposal and its design and materials to be used would not impact on the setting of the PB and complies with policies GP5 and GP8 in this respect.

The application is acceptable in relation to all other relevant policies listed above and other material planning considerations.
