Conclusion/Brief comment:

This application is for a change of use from public amenity use class 18 back to general retail use class 10.

This application will return the use back to general retail which was its use up to 2017. Since then it has continued to be used for a variety of uses, all of which involved the general public entering to receive a service or to buy goods.

The present use for massaging and treatments closed down a few years ago and the unit has been vacant ever since, changing the use back to general retail is supported by policy MC3 and encouraged by policy MC6. Therefore both policies are complied with.

There will be no external or internal changes to the premisses, therefore policy GP5 and policy GP4 are complied with.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
