### Conclusion/Brief comment:

This application is to remove a small section of front boundary hedge (2.5m) to allow for off-road parking, this is to allow the disabled residents to access their property. The total opening including the existing pedestrian access will be 4.25m.

None of the properties in the estate have off street parking, all parking is on the street with some specific parking areas. In this part of the clos the parking is on the other side of the road, so permitting this proposal would not eliminate an on-street parking space.

The proposal is to pave the whole of the front garden area, so there may be room to park two small cars in the future which is not considered to be an issue, and it will give plenty of room for the current residents to manoeuvre around their vehicle.

In this instance, because the reason is to ease access into the property for the disabled occupier, the removal of part of the boundary hedge is considered appropriate and acceptable.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

Grant with Conditions
