OFFICER'S REPORT

Brief Description of the site:

The application site consists of a single storey detached bungalow located on the corner between Clos Saumarez and Clos De Beauvoir. The property lies towards the entrance of Clos De Beauvoir which is visible from the main road (Rue Cohu).

The façade of the house faces towards, and is parallel to Clos De Beauvoir. The side (gable end) of the bungalow faces towards Clos Saumarez. The property is served by a car parking area and garage to the side (south) of the house, and is surrounded by garden to the north, east and west of the house.

The site is located Outside of the Centres as designated in the Island Development Plan.

Planning permission was granted in 2024 to erect a single storey pitched roof extension to the north elevation, and erect a single storey link extension to the south elevation and erect a shed (application ref: FULL/2024/0145). A replacement hedge was also approved (application ref: FULL/2024/1627).

Planning permission is now sought to erect a link extension to the south-east (front) elevation and make alterations to the fenestration. The extension will serve as a living room and porch.

Consultation - The Office of Environmental Health and Pollution Regulation:

I have reviewed the proposed plans for Arosa and I do not wish to raise any objections to the proposals.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The proposed development represents a modest sized addition to the property, is subservient and proportionate, and adopts a good standard of design by virtue of its scale, form, massing, siting and materials.

The extension relates well to the main house and will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

The rendered wall to the front of the house comprises exempt development, and all other alterations are acceptable.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
