Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The new siding doors to the north and east elevations represent exempt works as does the replacement of a door to a window in the west elevation. To replace a window with a door in the west elevation does not meet the current exemptions as the works are within 3m of a boundary with a neighbouring property.

The application is acceptable in relation to the above policies and other material planning considerations.
