Conclusion/Brief comment:

Planning permission was granted in 2024 to demolish and existing extension and to erect a single storey extension to the rear of the dwelling and to erect a single storey dower unit (Ref: FULL/2024/1430).

Permission is now sought, as a revised scheme, to demolish the existing extension and to erect a two storey extension to the north (rear) elevation of the property. During the course of consideration the application was deferred to alter the red line

site boundary to reflect the land owned by the applicant. Revised plans have now been submitted to address the issues raised.

The extension is of an appropriate scale, mass and form so as not to detract from the openness of the surrounding area. Situated to the rear of the property and consistent with other two storey flat roof extensions of similar proportions on neighbouring properties (in particular the property immediately to the east), the proposal will not negatively impact on the appearance of the surrounding area and would be in-keeping with the host dwelling. The materials to be used in the construction will also be consistent with the property and the surrounding area.

Although the proposal will increase overshadowing to the properties to the east and west, any additional overshadowing above that from the existing properties and from the ground floor extension as previously approved would not be so substantial to warrant the refusal of planning permission.

Although the proposal would affect light and outlook from the first-floor window in the east facing elevation of the two storey extension to the property to the east (Seefeld), given that this is a secondary, high level window, any effect would not be so substantial to warrant the refusal of permission.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposal would not affect or harm highway safety and for the above reasons complies with the relevant policies of the IDP.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
