Conclusion/Brief comment:

This application is to erect a two storey pitched roof extension to the west elevation to house a new kitchen and dining area on the ground floor and an additional bedroom and ensuite on the first floor. The dining area will be a single storey south extension and there will be a covered pergola area across the rest of the south elevation.

The extension is subservient to the main dwelling, the first floor bedroom windows look over their own garden and the far end of the neighbours garden, which is not their private amenity space. The extension is also sufficient distance from the garden area in this case and any harm regarding overlooking would not be so significant to warrant refusal of permission.

The window proposed to the front however will be circa 7m from the garden area of the neighbouring property to the north and at this distance would cause undue harm. It is recommended that a condition be included for this window to be fixed and to be obscure glazed.

The pergola and porch are considered to be appropriate and acceptable.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
