Conclusion/Brief comment:

The hotel is a protected building and so the Authority has a duty under Section 34 of the Land Planning and Development (Guernsey) Law, 2005, to secure so far as possible that the special interest of a protected building is preserved, and with respect to a protected building or any other building or land in the vicinity of a protected building, to pay special attention to the desirability of preserving the protected building's special characteristics and setting. With regards to the setting of protected buildings, this duty is encapsulated in Policies GP5 and GP8.

The site is situated within the vicinity of protected buildings to the north and south of the site. Taking into account that the proposal involves only the like for like replacement of existing rooflights in a small section of roof, the scale of the alterations proposed is limited and the scheme would not harm the setting of any nearby protected building. The proposal accords with Policies GP5 and GP8 in respect of its impact on the setting of protected buildings.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
