Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

Despite the cill height of the roof light being 1400mm above finished floor level, the orientation of the roof light and relationship to the external amenity space of the neighbouring property to the east is such, that it would not cause significant harm to the amenities of neighbouring residents to justify refusal.

The application is acceptable in relation to the above policies and other material planning considerations.
