OFFICER'S REPORT

Brief Description of the site:

The application site consists of a former granary of traditional construction. The property is located Outside of the Centres as designated in the Island Development Plan.

Planning permission was granted in 2008 to convert part of the ground floor and first floor of the existing restaurant and staff accommodation to a unit of residential accommodation (use class 1 – dwelling-house).

As part of that application additional information was received noting that the dwelling would be served by an existing car parking area on Rue de Quanteraine to the west of the Granary, with the self-catering unit served by parking provision to the south-east. The car park to the west of the building, is therefore recognised as forming a detached area of domestic curtilage, separated by an agricultural field.

Planning permission was granted in 2022 to erect a single storey detached garage/store and resurface the parking area to the south-west boundary (FULL/2022/0655).

Planning permission is now sought to reduce height of a retaining wall and alter ground levels to the rear of the property/self-catering units.
