OFFICER’S REPORT

Brief Description of the site:

The application site consists of a detached dwelling-house located north of Hartlebury Estate. The property backs onto Steam Mill Lane, and is subject to a change in ground level, decreasing in height in a south-to-north direction.

The site is located outside of the Centres as defined in the Island Development Plan.

Planning permission was granted in 2024 to extend the property at the lower ground floor and at the ground floor level to the rear (north) of the property (FULL/2023/2306). The application also included a raised terrace area, leading off the proposed extension as well as new and replacement sheds and a glasshouse to the rear of the property.

Planning permission is sought to vary the permission (FULL/2023/2306) by adopting a flat roof extension (rather than pitched), as well as omitting the balustrade and altering external steps associated with the raised terrace area to the rear of the property.

The alterations proposed as part of this application are acceptable in terms of the design adopted (Policy GP8), and will not adversely affect the character of the area, visual amenity or the amenities of neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
