OFFICER'S REPORT

Brief Description of the site:

The application site comprises a protected building known as 'Le Vieux Rouvet'. The whole of the building is protected. The property is located in an Agricultural Priority Area and is Outside of the Centres as defined in the Island Development Plan.

Planning permission was granted to replace windows and doors to the south, east and west elevations in 2020 (application ref: FULL/2020/0522), however that permission was not implemented.

Planning permission is sought under this application to replace the same windows, to the south, east and west elevations. Whilst the application was initially described as including replacement doors, this does not form part of the submitted proposals.

The application has been deferred to seek clarification of the replacement windows. Detailed drawings have been submitted in an attempt to address this point.

Conclusion/Brief comment:

It is a requirement under the Land Planning and Development (Guernsey) Law, 2005, when considering applications affecting protected buildings, to secure so far as possible that the special historic, architectural, traditional or other special characteristics (including setting) are preserved. This duty is reflected in Policy GP5 of the IDP.

The existing windows are made of a mix of materials, some of which are not appropriate to a building of this age and interest.

As per application ref FULL/2020/0522, the application is acceptable under Policy GP5 taking into account reasonable aspirations of the property owner to improve the thermal performance of the property. The provided detailed drawings of the replacement windows are acceptable.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
