The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to demolish the majority of the existing garage, leaving the external wall which forms the northern boundary wall, extend the hardstanding along the reast of the northern part of the site, and erect an outbuilding/workshop in the northeastern corner of the site facing south with a fence running from the north east corner of the dwelling to the eastern boundary wall.

This will extend the parking area slightly and retain the privacy of the eastern garden area. The second part of the application is to continue the existing post and wire fence along the southern end of the east boundary.

When the garage is demolished the height of the granite wall where the garage was would be reduced to match the height of the rest of the northern boundary wall (Approx 1.9m).

The new outbuilding will be a 6.1m x 3.6m 'Warwick' timber log cabin, which is 2.5m high at the ridge, and so it will not really be noticed from public vantage points. The 1.8m high fence is within the site and close to the dwelling and is not considered to be an issue.

Adding to the existing post and wire fence is also considered to be appropriate and acceptable in this instance.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The scale and massing of the new outbuilding is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on any of the immediate neighbours or the adjacent Protected Monument.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
