"*I have reviewed the proposed plans for to install illuminated signage at Number 1 le Truchot. I agree with the applicants proposal that the signage can have restricted illumination times. As detailed I the applicant this can be set via automatic timer.*

- *The hours of operation for the exterior illuminated signage shall be limited to 07:00 to 21:00 each day*."

Conclusion/Brief comment:

This application is to install an illuminated sign and tenant signage to the south elevation and install a sign to the southeast elevation.

The proposals are considered to achieve a good standard of design, using materials and individual lettering which complements the existing building. The scale and design of the new signage is not considered to have a detrimental effect on the character and amenity of the surrounding conservation area. Provided that the hours of illumination are limited as recommended by Environmental Health, the signage is unlikely to have any adverse effects on immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
