THE LAND PLANNING AND DEVELOPMENT (GUERNSEY) LAW, 2005

AND THE LAND PLANNING AND DEVELOPMENT (GENERAL PROVISIONS) ORDINANCE, 2007

NOTIFICATION OF GRANT OF PLANNING PERMISSION

PROPOSALS: Install replacement substation with GRP housing and associated works.

LOCATION: Electricity Substation, Les Blicqs Lane, Ruette Des Norgiots, St. Andrews.

APPLICANT: Guernsey Electricity Ltd

This permission is granted under the terms of Sections 15 and 16 of the Land Planning and Development (Guernsey) Law, 2005 (the 'Law').

Date of Grant of Permission: 06/11/2026

This notification of grant of permission refers solely to the proposals referred to above as described in your application received as valid on 11/08/2026 and the drawings referred to below. This grant of permission is subject to the following conditions:-

Drawing Nos: Guernsey Electricity: P02-01-12-0289 D04

Application Ref: FULL/2026/1315

Property Ref: K00721M000

Conditions and reasons:-

1. All development authorised by this permission must be carried out and must be completed in every detail in accordance with the written application, plans and drawings referred to above. No variations to such development amounting to development may be made without the permission of the Authority under the Law.

Reason - To ensure that it is clear that permission is only granted for the development to which the application relates.

2.The development hereby permitted shall be begun within 3 years from the date of grant of this permission.

Reason - This condition reflects section 18(1) of the Land Planning and Development (Guernsey) Law, 2005 which states that planning permission ceases to have effect unless development is commenced within 3 years of the date of grant (or such shorter period as may be specified in the permission).

3.The development hereby permitted and all the operations which constitute or are incidental to that development must be carried out in compliance with all such requirements of The Building (Guernsey) Regulations, 2012 as are applicable to them, and no operation to which such a requirement applies may be commenced or continued unless (i) plans relating to that operation have been approved by the Authority and (ii) it is commenced or, as the case may be, continued, in accordance with that requirement and any further requirements imposed by the Authority when approving those plans, for the purpose of securing that the building regulations are complied with.

Reason - Any planning permission granted under the Law is subject to this condition as stated in section 17(2) of the Land Planning and Development (Guernsey) Law, 2005.

Expiry Date: This permission will cease to have effect on 05/11/2029 unless development is commenced by that date.

ADVICE AND OTHER REMARKS:-

If, during development, contamination not previously identified is found to be present at the site, no further development shall take place until the developer has submitted a method statement to the Authority to identify, risk assess, and address the unidentified contamination, and has obtained written agreement from the Authority for the works to proceed. Any subsequent development must be carried out in accordance with the conclusions and recommendations of the approved report.

Effect of planning permission:

Section 18 of the Land Planning and Development (Guernsey) Law, 2005 ('the Law') defines the effect of the planning permission hereby granted, namely:

(1) Planning permission ceases to have effect unless the development permitted by it is commenced within a period of three years immediately following the date on which it is granted (or such shorter period as may be specified in the permission).

(2) Planning permission enures for the benefit of the land concerned and of every person for the time being having an interest in it.

(3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.

(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

Your attention is drawn to the provisions of Section 68(1) of the Land Planning and Development (Guernsey) Law 2005, which provides a right of appeal, on the merits against a decision to grant planning permission subject to conditions (except a building condition), to the Planning Tribunal, which is independent of the States of Guernsey. An appeal to the Planning Tribunal under section 68 of the Law against this decision must be made before the expiry of the period of six months beginning with the date on which the Authority made this decision. The official Appeal Notice Forms are available on the States of Guernsey website at www.gov.gg/planningpanel and must be completed with all enclosures in multiples as requested and received within the six months deadline.

Copy of representations made:

In reaching this decision the Authority took into account any written consultations made under Section 11(1) of the Land Planning and Development (General Provisions) Ordinance, 2007 ('the Ordinance'). A copy of any consultation responses made under section 11 will be included with this decision in accordance with section 19 of the Ordinance.

Other Remarks:

Please note that any work which abuts or affects the public highway requires prior approval by Traffic and Highway Services. Please contact Traffic & Highway Services (highways@gov.gg) for further advice. You must also ensure that any access/es to the development are constructed to meet the existing road/footway levels in accordance with their requirements.

This document is not a Building Licence and confers no approval under the Building Regulations.

A separate Building Control Licence may be required and it is the responsibility of the developer to ensure that ALL necessary consents are obtained and that any pre-commencement conditions are discharged prior to development being commenced.

PLANNING APPLICATION REPORT

Application No:	FULL/2026/1315
Property Ref:	K00721M000
Valid date:	11/08/2026
Location:	Electricity Substation Les Blicqs Lane Ruette Des Norgiots St. Andrews Guernsey GY6 8YE
Proposal:	Install replacement substation with GRP housing and associated works.
Applicant:	Guernsey Electricity Ltd

RECOMMENDATION - Grant: Planning Permission with Conditions:

---

1. All development authorised by this permission must be carried out and must be completed in every detail in accordance with the written application, plans and drawings referred to above. No variations to such development amounting to development may be made without the permission of the Authority under the Law.

Reason - To ensure that it is clear that permission is only granted for the development to which the application relates.

2. The development hereby permitted shall be begun within 3 years from the date of grant of this permission.

Reason - This condition reflects section 18(1) of the Land Planning and Development (Guernsey) Law, 2005 which states that planning permission ceases to have effect unless development is commenced within 3 years of the date of grant (or such shorter period as may be specified in the permission).

3. The development hereby permitted and all the operations which constitute or are incidental to that development must be carried out in compliance with all such requirements of The Building (Guernsey) Regulations, 2012 as are applicable to them, and no operation to which such a requirement applies may be commenced or continued unless (i) plans relating to that operation have been approved by the Authority and (ii) it is commenced or, as the case may be, continued, in accordance with that requirement and any further requirements imposed by the Authority when approving those plans, for the purpose of securing that the building regulations are complied with.

Reason - Any planning permission granted under the Law is subject to this condition as stated in section 17(2) of the Land Planning and Development (Guernsey) Law, 2005.

INFORMATIVES

If, during development, contamination not previously identified is found to be present at the site, no further development shall take place until the developer has submitted a method statement to the Authority to identify, risk assess, and address the unidentified contamination, and has obtained written agreement from the Authority for the works to proceed. Any subsequent development must be carried out in accordance with the conclusions and recommendations of the approved report.

OFFICER'S REPORT

Brief Description of the site:

The site where the existing substation is located is just north of Les Blicqs Lane, on the corner of La Villiaze Road as it winds from the north round to the west around the airport. There are open fields and the airport in all directions. The property is located Outside of the Centres and within the airport safeguarded area as defined in the Island Development Plan.

Relevant History:

There is no relevant history pertaining to this application.

Existing Use(s):

Electrical substation.

Assessment: *(Tick as appropriate)*

no representation	✓	visual amenity acceptable	✓
accords with policy	✓	no material neighbour impact	✓
within curtilage	✓	traffic not affected	✓
design acceptable	✓		

Policies considered most relevant:

IP11: Small-scale Infrastructure Provision
GP1: Landscape Character and Open Land
GP8: Design
GP9: Sustainable Development

Consultations:

Office of Environmental Health and Pollution Regulation.
'*I have concerns that the proposed works to remove the above-ground section of the earth bank could introduce pathways for contamination to reach potential receptors. However, I recognise that, as the works are limited to above-ground activities, the likelihood of this occurring is low. Therefore, I request that the following informative be attached should planning permission be granted:*

If, during development, contamination not previously identified is found to be present at the site, no further development shall take place until the developer has submitted a method statement to the Authority to identify, risk assess, and address the unidentified contamination, and has obtained written agreement from the Authority for the works to proceed. Any subsequent development must be carried out in accordance with the conclusions and recommendations of the approved report.'

Conclusion/Brief comment:

It is understood that electricity transmission and distribution, includes sub-stations and are essential infrastructure required to ensure inhabitants of Guernsey have access to electricity. Substations have a finite life and it is necessary to continually replace and upgrade substations. New substations are required for new and expanding electricity requirements (domestic and commercial).

The scheme would contribute to the maintenance and support of efficient infrastructure and meets the aims of Policy IP11 of the Island Development Plan.

The substation will be within the application site, it would be partially screened by boundary earth banks and planting and it is not considered to have an unacceptable adverse effect on the open landscape concerned with regard to GP1. The GRP covered substation would represent a good standard of design that respects the local open landscape concerned in accordance with the aims of Policy GP8.

The GRP enclosure will provide a shield to any noise generated by the equipment housed within. Furthermore, a planning condition has been recommended by the Office of Environmental Health and Pollution Regulation in order to address the potential contamination that could arise from the proposed development.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

Recommendation:
Grant with Conditions ☑
