The building is located in the St Peter Port Main Centre, Conservation Area and Harbour Action Area as defined in the Island Development Plan.

Policies considered most relevant:

MC6: Retail in Main Centres
MC10: Harbour Action Areas
GP4: Conservation Areas
GP6: Protected Monuments (Setting)
GP8 Design
GP9: Sustainable Development.

Conclusion/Brief comment:

This application is to erect a meatal canopy to the west elevation of the building to the north of the kiosk, to allow pedestrians to queue under cover.

The canopy has been detailed to match the age of the building which is granite fronted and probably dates to the mid-19th century.

The canopy is not considered to inhibit any implementations of any Local Planning Brief regarding the Harbour Action Area, nor would it have any detrimental impacts on the setting of the Protected Monument to the north, the Prince Albert statue.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The scale and massing of the new canopy is not considered to have a detrimental effect on the character and amenity of the surrounding conservation area, nor will it have any impact on any of the immediate neighbours or on the setting of the nearby Protected Buildings.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
