**Conclusion/Brief comment:**

This application is to erect a front porch to the east elevation and to erect a small bike shed to the north boundary of the front east facing garden area.

Due to the informality of the architecture along this stretch of road, adding a porch to the front of the property is not considered to have any detrimental impacts to the character and appearance of the area, nor will it impact on neighbour amenity.

The northern boundary in the front garden of the property is a 1.8m high granite wall which the bike store will be located next to, which means it will be screened from public view when approaching from the north and it won't be as noticeable due to the wall when approaching from the south.

The porch and bike store are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
