OFFICER'S REPORT

Brief Description of the site:

La Grande Flaguee, Vieille Rue is a large detached, two-storey dwelling set in a large plot with vehicular access from both the west (Vieille Rue) and east (Frie Baton). A detached cottage was situated adjacent to the south site boundary but this was demolished following the grant of planning permission for a replacement dwelling in 2020. That area of the site is currently largely hardsurfaced and is used for domestic and other storage.

The site is located Outside of the Centres and within the Agriculture Priority Area as designated in the Island Development Plan.

FULL/2026/1426 - Variation to previously approved plans to erect replacement dwelling with parking and associated works - erect detached ancillary domestic outbuilding - granted

Conclusion/Brief comment:

The application relates to the removal of a section of the existing roadside earthbank in Vieille Rue to facilitate access for the construction of the dwelling approved earlier in 2026. The submission outlines that the dwelling is a kit construction arriving from Germany using large vehicles and the existing site entrance from La Frie Batton cannot be used because the proposed dwelling, when under construction, will be surrounded by scaffolding for the wall panels and so the access will be blocked. The drawings note that the temporary period would be for 12 months from the date of the permission.

The works will not result in unacceptable harm to the character and appearance of the locality and open landscape concerned. Furthermore, the works will not result in harm to the amenities of surrounding residential properties.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

In view of the above it is recommended permission is granted subject to conditions.
